[Concept & Feasibility Design](#)

[Planning & Listed Building Applications](#)

**Specification**

[Full Architectural Services](#)

Depending on the particular requirements of the project, procurement route and contract, we produce outline specifications and schedules of work up to full NBS specification documents.

[Project Management & Contract Administration](#)

These communicate the scope, quality and other requirements of the products and materials that go in to making a building project in order to ensure that the contractor delivers what the client is expecting.
