Private Client & Interior Design Services

On projects within the high-end residential sector and for private clients, we offer an in-house interior design service tailored to suit the requirements of the client and project. Full design of bathrooms and kitchens, detail design of joinery and cabinetry, selection of finishes, fittings and decorations are carried out alongside internal furniture layouts, conceptual lighting layouts and M&E design intent layouts. The considerable experience the practice has built up in the design of interiors has led to this becoming a specialized area in the scope of our services. We can also offer a full interior decoration service that includes soft furnishings and interior styling by working in collaboration with experienced professionals under our wing.
