

Collins Theatre

London Borough of Islington, N1

The building shell and upper floor apartments of the site on the corner of Islington Green and Essex Road were completed over ten years ago. The practice have been appointed to co-ordinate the fit out and obtain all necessary detail consents for a multi function theatrical space of three underground levels, also incorporating a ground floor retail and restaurant space.

This is an exciting and challenging interiors project with a large client and professional team which it is hoped will be on site prior to the end of 2014.

Client: Cardiff Asset Ltd
